Join Girl Scouts Troop #3302 in celebrating Rosies!

Rosies are the more than 6 million women who answered our nation's call and worked on the US homefront during WWII. Rosies built airplanes, ships, railroads, and much more to fill the need left by those who went overseas to fight in WWII!

Special guest speaker: Elinor Otto- "America's Longest Working Rosie."

Girl Scouts will receive a STEM goody bag (first come, first served) and will be invited to place a provided flower on a wreath to honor the many Rosies who paved the way for Girls!

Special thanks to Spirit of '45, The Battery Conservancy, Week Roses Co., PS/IS 276 The Battery Park City School, American Battle Monuments Commission and Girl Scouts of Greater New York!
